

# HILAH AYERS

We are happy to report that the highly demanded playground overhaul was successfully completed before the weather turned and will be accessible as soon as the resort reopens in the spring. With that being said, we hardly received any community support through member-initiated fundraisers this summer; therefore, a one-time playground-specific surcharge will likely be introduced unless philanthropic contributions roll in over the course of the offseason to help offset the expense associated with such a significant undertaking. There is considerable room within the playground borders for expansion and additional equipment, such as swings, barrel spinners, and rockers too, but further improvements will be put on hold until more community support is secured.

We take great pride in the incredible transformation and tremendous enhancements that have taken place throughout the property in recent years, but as continually implored, we need tenant aid, mindful energy consumption, and unity to maintain

ultra-competitive rates amid sky-high inflation, so your cooperation remains paramount. We will gladly provide a letter of endorsement to anyone interested in hosting a fundraiser, charity event, or pledge campaign in the name of this cause, so please email [info@hilahayers.com](mailto:info@hilahayers.com) for more details. Rebates will be considered for future subsidization as well. As always, all donations, altruistic efforts, and acts of generosity are sincerely appreciated. **Thank you!**
